

IFR Arc Flash Protection for Cold Weather Work (Accessories)

HRC1 Neck Gaiters

Arc Flash Rating HRC1 = 7.3 Cal/cm²

Tri-Star Neck Gaiters are inherent flame resistant (IFR) and provide arc flash protection. They are the perfect blend of comfort and protection to wear against the neck when creating the ultimate layered, cold weather work system.

Wear them in conjunction with our Barn Coats for extra warmth, or under one of our Hoodies or long sleeve tees once it warms up.

Product Description

- Constructed using 6.4oz, an inherent flame resistant (IFR), arc-flash rated Modacrylic Cotton Jersey fabric.
- The fabric is warm, soft, and comfortable.
- Since the protective properties are inherent to the fibers of the fabric, they cannot be laundered out over the life of the garment, and will not burn, melt, or drip.

Will Not Burn, Melt, or Drip.

- Can be worn in several configurations to match the immediate requirement.
- Available single layered for the not-so-cold-days, or double for the bone-chilling ones.

Proudly made
in the USA

TSG-5030-Black
Wear is as a Neck Gaiter

For Layers of Warmth and Protection, consider our:

- Barn Coats
