

IFR Arc Flash Protection for Cold Weather Work (Middle Layer)

HRC2 Hoodies

ASTM F1959/F1959M-14
Arc Flash Rating HRC2 = 19 Cal/cm²
Heat Attenuation Factor = 92%
Meets NFPA 2112:2018

Tri-Star Hoodies with arc flash protection make the perfect middle layer when creating the ultimate layered cold weather work system, or an outer layer once it warms up.

Layers of clothing provide protection and comfort. Wearing the hoodie under one of our barn coats creates an insulating layer to help retain body heat and our base layers wick the sweat away.

Proudly made
in the USA

Product Description

- Constructed using 10.75 oz, arc-flash rated, inherent flame resistant (IFR) modacrylic cotton fleece. Available in Hi-Vis Yellow, Orange or Navy.
- Inside is a warm, comfortable, soft layer of flocked fleece.
- Since the protective properties are inherent to the fibers of the fabric, they cannot be laundered out over the life of the garment, and will not burn, melt, or drip.

Will Not Burn, Melt, or Drip.

- The hood is designed to fit over a standard hard hat.
- When worn as the outer layer, the fleece kangaroo pouch will help keep hands warm or can be used to store cell phones, keys or other items that need to stay handy.
- For visual identification and compliance, HRC2 appears on the left sleeve.
- Available in pullover or zip-up configuration.

Cut Protective are
available.**

Drawstring with
Cord Lock

Do We Customize? You Bet We Do!

- Need a Hemmed Sleeve instead of the knit wrist? Just ask!
- If the hoodie would be perfect without the kangaroo pouch, no problem.
- We can also make a regular sized hood for those not wearing a hard hat.
- 3M Retro-Reflective Hi-Vis striping provides extra visibility in low light conditions. Available in Yellow/Silver/Yellow, Orange/Silver/Orange, and All Silver.
- Interested in personalizing each coat? We can add your embroidered or heat transfer logo, specific department, and team member's name.

Let us know how we can customize our hoodies specific to your company.
