

Low Lint / Paint

TSG-238 Series

Description:

The TSG-238 series is a 13 gauge, domestic polyester glove in heather gray. It is silicone-free and it has a 2" cuff with an overcast edge.

Properties:

Heather gray provides a sharp contrast to industry automotive products giving better product identification during application and quality control.

Cuffs are color coded by size for easy identification and visual compliance. The TSG-238 series cuff is overcast using a thermal heat-set yarn to minimize any errant particulate used by traditional surging.

This series is able to be laundered, providing cost saving opportunities.

Recommended:

The TSG-238 targets work areas requiring low lint and clean areas such as paint and engine departments.

Size	Cuff Color
Extra Small	Gray
Small	Yellow
Medium	Green
Large	White
Extra large	Gray
